INTRODUCTION

WELCOME TO ALL-STAR BOWL XIII.

WELCOME TO THE 13TH ANNUAL U.S. ARMY ALL-STAR BOWL. The *All-Star Bowl* is the premier high school football event in Kern County that features the most elite players and cheerleaders in the country. Dedication, discipline, determination, sacrifice and team work are what lead these players to success. These players are equally successful in their academics which is truly the definition of an All-Star, and why the United States Army is proud to be a part of this wonderful event. *We are the best Army in the world.* The same attributes that lead these players to success are also needed in order to become a Soldier of this great nation. I am happy to see their values parallel with our military values; rest assured the future is in good hands.

Thank you,

KAI H. OBOHO
CPT, LG
Commanding

The U.S. Army would like to thank the Rabobank Arena, the City of Bakersfield, and all of the sponsors that made this event possible. I would personally like to thank the players and cheerleaders, their parents and family members for coming out to support these fine young men and women as they participate in this once in a lifetime event.

Army Soldiers are available on-site to answer any questions you have about Army life and the many education and job opportunities that are available. If you are in high school or are a graduate, talk to a Soldier and find out about the many job opportunities, technical skills and careers available in the Army.

Army Strong! ■

HISTORY ALL-STAR BOWL

IN DECEMBER OF 2001, a new arena football franchise was established in Bakersfield. Owner **Casey Wasserman** hired **Brad Hoffman** as the first **Bakersfield Blitz** general manager. Hoffman came up with the idea of creating an arena style high school all-star game to help promote arena football in Kern County. Hoffman's brainchild was the first arena style all-star game in the nation and continues to be the only arena style all-star game in the nation. Although the Blitz franchise changed ownership several times the huge interest in this unique game has kept it alive, even after the Blitz franchise folded in August 2007. Local resident **Paul Press**, who has been involved with the game since it was first played, who is a principal in Tehachapi and former Blitz general manager took over operating the game in 2006 and joined forces with **U.S. Army** in 2009 and expanded the game to be more than just an all star football game.

The **U.S. Army All-Star Bowl** currently has over one hundred participants, (coaches, players, and cheerleaders) more than 30 volunteers, and employs several staff members. Last years game was well attended by more than five thousand spectators, mostly between the ages of 16 - 26. The game has been broadcast live on local radio and cable television, this year the game is being televised on Bright House Networks channel 11. Local non-profits and community/faith based organizations benefit from the event by receiving free tickets to attend the game, mentoring from the players and cheerleaders and receive cash donations. In 2009 the game begin to award scholarships to players for their academic success and community involvement, since 2009 the game has awarded over \$10,000 in scholarships to players and cheerleaders. This unique event, which was once just a crazy dream, is now the largest attended high school all star game in the state and is promoted six months out of the year. This event has truly become a community event which involves mentoring to youth, free tickets so hundreds of local youth may attend, scholarships so participants may further their education, and donations to local non-profit organizations. ■
