

# Bakersfield VETERINARY HOSPITAL

Bakersfield Veterinary Hospital was founded in 1923, and is considered to be one of the most established animal hospitals in Kern County. The “original” 1923 horse, shown left, proudly represents the 86 years of service that we have provided to our clients and their animal companions. Our overall success and longevity has been achieved by continuously providing care for our patients through compassionate and genuine service. Our goal is to treat, cure, and maintain the health of your pets- with sincerity and compassion.

**OPEN 7 DAYS A WEEK!**
